Safety Data Sheet acc. to OSHA HCS

Printing date 10/25/2018

Reviewed on 10/25/2018

1 Identification	
· Product identifier	
Trade name: Gluma Desensitizer PowerGel	
 Application of the substance / the mixture For desensitisation of t 	eeth
• Details of the supplier of the safety data sheet • Manufacturer/Supplier: Kulzer GmbH Leipziger Straße 2, 63450 Hanau (Germany)	Tel.: +49 (0)800 4372522
• Information department: Tel. +1 (800) 431-1785 Fax: +1 (800) 522-1545 e-mail: customer.servicehkna@kulzer-dental.com • Emergency telephone number: Emergency CONTACT (24-Hour-Number) GBK/Infotrac ID 105860: (domestic) 1 800 535 5053 or international (00	01) 352 323 3500
2 Hazard(s) identification	
 Classification of the substance or mixture Flam. Liq. 4 H227 Combustible liquid. Skin Irrit. 2 H315 Causes skin irritation. Eye Dam. 1 H318 Causes serious eye damage. Resp. Sens. 1 H334 May cause allergy or asthma symptoms or breathing Skin Sens. 1 H317 May cause an allergic skin reaction. 	difficulties if inhaled.
• Label elements • GHS label elements The product is classified and labeled according to the Globally Harmoniz • Hazard pictograms GHS05 GHS08	zed System (GHS).
Signal word Danger	
 Hazard-determining components of labeling: 2-hydroxyethyl methacrylate glutaral Hazard statements Combustible liquid. Causes skin irritation. Causes serious eye damage. May cause allergy or asthma symptoms or breathing difficulties if inh. May cause an allergic skin reaction. Precautionary statements Avoid breathing dust/fume/gas/mist/vapors/spray Wear protective gloves/protective clothing/eye protection/face protect In case of inadequate ventilation wear respiratory protection. IF INHALED: Remove person to fresh air and keep comfortable for b If in eyes: Rinse cautiously with water for several minutes. Remove and easy to do. Continue rinsing. Specific treatment (see on this label). 	tion. reathing. contact lenses, if present

Trade name: Gluma Desensitizer PowerGel

- · Special hazards arising from the substance or mixture
- Formation of toxic gases is possible during heating or in case of fire. • Advice for firefighters
- Protective equipment: Mount respiratory protective device.
- · Additional information -

6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away.
- Environmental precautions: No special measures required.
- **Methods and material for containment and cleaning up:** Absorb with liquid binding material (diatomite, universal binders, for small amounts tissues). Dispose contaminated material as waste according to item 13. Send for recovery or disposal in suitable receptacles.
- **Reference to other sections** See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

- · Handling
 - · Precautions for safe handling
 - Wear protective equipment. Keep unprotected persons away.
 - Keep receptacles tightly sealed.

Ensure good ventilation/exhaustion at the workplace.

- Please observe the additional instructions in the product's instructions for use.
- Information about protection against explosions and fires: No special measures required.

· Conditions for safe storage, including any incompatibilities

Storage

- · Requirements to be met by storerooms and receptacles: No special requirements.
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: None.
- · Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

Control parameters

• Components with limit values that require monitoring at the workplace:

111-30-8 glutaral

- REL Short-term value: C 0.8 mg/m³, C 0.2 ppm
- TLV Short-term value: C 0.2 mg/m³, C 0.05 ppm
 - SEN

· Additional information: The lists that were valid during the creation were used as basis.

· Exposure controls

- Personal protective equipment
 - General protective and hygienic measures
 - Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing

	Wash hands before breaks and at the end of work.
	Do not inhale gases / fumes / aerosols.
	Avoid contact with the eyes and skin.
	Breathing equipment:
	Not necessary with efficient local exhaust. If exposition to vapours is possible, use breathir protective mask (filter A).
	Protection of hands:
	The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
	Selection of the glove material on consideration of the penetration times, rates of diffusion ar the degradation
	If skin contact cannot be avoided, protective gloves are recommended to avoid possible sensitization.
	Solvent resistant gloves
	Check protective gloves prior to each use for their proper condition. recommended
	Material of gloves
	The selection of the suitable gloves does not only depend on the material, but also c further marks of quality and varies from manufacturer to manufacturer. As the product is preparation of several substances, the resistance of the glove material can not b calculated in advance and has therefore to be checked prior to the application.
	 Penetration time of glove material The exact break through time has to be found out by the manufacturer of the protectiv gloves and has to be observed.
	• For the permanent contact of a maximum of 15 minutes gloves made of the followin materials are suitable:
	Butyl rubber, BR
	Nitrile rubber, NBR
	· Eye protection:
	Before use, put on the protective goggles and cover the patient's eyes to protect again splashes of material.
	· Body protection: Light weight protective clothing
