

Safety Data Sheet acc. to OSHA HCS

Page 1/8

Printing date 10/25/2018 Reviewed on 10/25/2018 1 Identification · Product identifier · Trade name: Gluma Desensitizer · Application of the substance / the mixture For desensitisation of teeth · Details of the supplier of the safety data sheet Manufacturer/Supplier: Kulzer GmbH Leipziger Straße 2, 63450 Hanau (Germany) Tel.: +49 (0)800 4372522 · Information department: Tel. +1 (800) 431-1785 Fax: +1 (800) 522-1545 e-mail: customer.servicehkna@kulzer-dental.com Emergency telephone number: Emergency CONTACT (24-Hour-Number) GBK/Infotrac ID 105860: (domestic) 1 800 535 5053 or international (001) 352 323 3500 2 Hazard(s) identification · Classification of the substance or mixture Skin Irrit. 2 H315 Causes skin irritation. Eye Dam. 1 H318 Causes serious eye damage. Resp. Sens. 1 H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled. Skin Sens. 1 H317 May cause an allergic skin reaction. · Label elements GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS). · Hazard pictograms GHS05 GHS08 · Signal word Danger · Hazard-determining components of labeling: 2-hydroxyethyl methacrylate glutaral Hazard statements Causes skin irritation. Causes serious eye damage. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause an allergic skin reaction. Precautionary statements Avoid breathing dust/fume/gas/mist/vapors/spray Wear protective gloves / eye protection / face protection. In case of inadequate ventilation wear respiratory protection. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Specific treatment (see on this label). If experiencing respiratory symptoms: Call a poison center/doctor. (Contd. on page 2) US

5 Fire-fighting measures

· Extinguishing media

- · Suitable extinguishing agents
- CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- · Special hazards arising from the substance or mixture
- Formation of toxic gases is possible during heating or in case of fire. • Advice for firefighters
- Protective equipment: Mount respiratory protective device.
- · Additional information -

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures Not required.
 Environmental procedures: No special measures required.

- Environmental precautions: No special measures required. • Methods and material for containment and cleaning up:
- Absorb with liquid binding material (diatomite, universal binders, for small amounts tissues). Dispose contaminated material as waste according to item 13. Send for recovery or disposal in suitable receptacles.
- **Reference to other sections** See Section 13 for disposal information. See Section 8 for information on personal protection equipment.

7 Handling and storage

· Handling

Precautions for safe handling

- Keep receptacles tightly sealed.
- Wear protective equipment. Keep unprotected persons away.
- Ensure good ventilation/exhaustion at the workplace.
- · Information about protection against explosions and fires: No special measures required.
- \cdot Conditions for safe storage, including any incompatibilities
 - · Storage
 - Requirements to be met by storerooms and receptacles: No special requirements.
 - Information about storage in one common storage facility: Not required.
 - Further information about storage conditions: None.

• Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

· Control parameters

• Components with limit values that require monitoring at the workplace:

111-30-8 glutaral

REL () Short-term value: C 0.8 mg/m³, C 0.2 ppm

TLV () Short-term value: C 0.2 mg/m³, C 0.05 ppm

SEN

• Additional information: The lists that were valid during the creation were used as basis.

(Contd. of page 3) Exposure controls Personal protective equipment General protective and hygienic measures Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Breathing equipment: Not necessary with efficient local exhaust. If exposition to vapours is possible, use breathing protective mask (filter A). Protection of hands: The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation If skin contact cannot be avoided, protective gloves are recommended to avoid possible sensitization. Solvent resistant gloves Check protective gloves prior to each use for their proper condition. recommended Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. Penetration time of glove material The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. For the permanent contact of a maximum of 15 minutes gloves made of the following materials are suitable: Butyl rubber, BR Nitrile rubber, NBR Eye protection: Before use, put on the protective goggles and cover the patient's eyes to protect against splashes of material.

- Tightly sealed goggles.
- · Body protection: Light weight protective clothing

Information on basic physical and che General Information Appearance:	emical properties	
Form:	Fluid	
· Color:	Colorless	
· Odor:	Aromatic	
 Odor threshold: 	Not determined.	
· pH-value at 20 °C (68 °F):	4,0	
Change in condition Melting point/Melting range:	undetermined	
· Boiling point/Boiling range:	100 ℃ (212 °F)

· Flash point:	Not applicable
· Flammability (solid, gaseous)	Not applicable.
· Ignition temperature:	230.0 °C (446 °F)
· Decomposition temperature:	Not determined.
· Auto igniting:	Product is not selfigniting.
· Danger of explosion:	Product does not present an explosion hazard.
Explosion limits: Lower: Upper:	Not determined. Not determined.
· Vapor pressure at 20 °C (68 °F):	23 hPa (17.3 mm Hg)
Density at 20 °C (68 °F): Relative density Vapor density Evaporation rate	1,16 g/cm ³ (9.6802 lbs/gal) Not determined. Not determined. Not determined.
Solubility in / Miscibility with Water:	Not miscible or difficult to mix
Partition coefficient (n-octanol/wa	ater): Not determined.
 Viscosity: dynamic: kinematic: 	Not determined. Not determined.
Solvent content: Water: Other information	58.8 % No further relevant information available.

10 Stability and reactivity

- · Reactivity No further relevant information available.
- · Possibility of hazardous reactions No dangerous reactions known
- · Conditions to avoid No further relevant information available.
- Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: none

11 Toxicological information

· Information on toxicological effects

· Acute toxicity:

· LD/LC50 values that are relevant for classification:

Oral LD50 > 2000 mg/kg (rat)

868-77-9 2-hydroxyethyl methacrylate

- Oral LD50 5564 mg/kg (rat)
- Dermal LD50 >3000 mg/kg (can)
 - Primary irritant effect:
 - on the skin: Irritant to skin and mucous membranes.
 - on the eye: Strong irritant with the danger of severe eye injury.

· Sensitization:

Sensitization possible through inhalation. Sensitization possible through skin contact. • Additional toxicological information: Harmful

Irritant

· Carcinogenic categories

IARC (International Agency for Research on Cancer)

None of the ingredients is listed.

· NTP (National Toxicology Program)

None of the ingredients is listed.

· OSHA-Ca (Occupational Safety & Health Administration)

None of the ingredients is listed.

12 Ecological information

· Toxicity

Aquatic toxicity:

868-77-9 2-hydroxyethyl methacrylate

LC50/96h 227 mg/l (fish)

• Persistence and degradability No further relevant information available.

· Behavior in environmental systems:

· Bioaccumulative potential No further relevant information available.

• Mobility in soil No further relevant information available.

· Additional ecological information:

- General notes:

Do not allow product to reach ground water, water course or sewage system, even in small quantities.

banger to drinking water if even extremely small quantities leak into the ground.

· Results of PBT and vPvB assessment

- · **PBT:** Not applicable.
- · vPvB: Not applicable.

• Other adverse effects No further relevant information available.

13 Disposal considerations

Waste treatment methods

Recommendation

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

· Uncleaned packagings:

Recommendation: Disposal must be made according to official regulations.

14 Transport information

· UN-Number

· DOT, ADR, ADN, IMDG, IATA
