Trade Name: Porcelain Etch Gel

P302+P350: If on skin, gently wash with soap and water.

P304+340: If inhaled, remove victim to fresh air and keep at rest in a position comfortable for breathing.

P305 + P351 + P338: If in eyes, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing until pH of tears is 7.

3.0	Composition					
3.1	Chemical Chara	acterization	9.6% Hydrofluoric Acid in a proprietary gel base			
3.2	Hazardous Ingr	edients				
	CAS Number	Name of the ingredient	Concentration	Classification per 67/548/EEC	Classification per Regulation (EC) No.1272/2008 (CLP).	
	7664-39-3	Hydrofluoric acid	9.6%	T; R 26/27/28 C; R 35	Acute Toxicity; 2 Skin Corrosion / Serious eye damage, 1A	
	64-17-5	Ethyl alcohol	5.3 %	Xi: R 10-36/37/38	Flammable liquid,2 Eye irritation, 2 STOT SE, 3 Skin irritation, 2	
4.0	First Aid Measures					
4.1	General Information		hydrofluoric acie corrosive. AVO swallowed or ab	d that has been incor	Porcelain Etch Gel is buffered, diluted (9.6%) porated into a gel, this product is still very VITH PRODUCT. May be fatal if inhaled, causes severe burns.	
4.2	Eye Contact		surrounding skir flushing of the	n with running water fo entire surface. Get e	nmediately (within 1 minute) flush eyes and r 30-60 minutes, holding lids apart to ensure emergency medical attention only after the ontinued during transport.	
4.3	Skin Contact		30-60 minutes medical attention during transport in well) every 15	while removing contan on only after the flush Apply 2.5% calcium g	mmediately flush skin with running water for ninated clothing and shoes. Get emergency ing is complete unless it can be continued gluconate gel to the exposed area (rubbing it uconate is not available, apply benzethonium e exposed area.	
4.4	Ingestion		patient rinse mo		Do not induce vomiting. If conscious, have mount of water to dilute. Never give anything	
4.5	Inhalation				er oxygen, artificial respiration and/or CPR as are. Have patient lie down; keep quiet, warm.	
4.6	Precautions for first responders		Avoid all contact with material. Wear face shield, gloves, lab coat. Awareness of burns may be delayed . Begin first aid as soon as possible. Have someone else call for emergency medical care and ventilate area.			
4.7	Information for physicians					
	Symptoms		Pain and rednes	ss at site of contact. Vio	tim may not initially be aware of burn.	
	Hazards		May be fatal if inhaled, swallowed, absorbed through skin. Causes severe burns.			
	Treatment		Same as above (4.1 to 4.4). Also, skin burns may be treated by immersing the area in iced magnesium sulfate solution (25 to 50%) or iced water, taking care to prevent			

Trade Name: Porcelain Etch Gel

frostbite by moving from iced solution every 10 to 15 minutes.

5.0	Fire Fighting Measures	
5.1	Suitable extinguishing media	Carbon dioxide. Dry chemical.
5.2	Extinguishing media to avoid	Water.
5.3	Special exposure hazards in a fire	Porcelain Etch Gel: None likely in this product. Bulk Hydrofluoric acid in closed containers: Pressure will build to dangerous levels when exposed to high temperatures. Flammable when heated.
5.4	Special protective equipment for firefighters	Firefighters should wear self-contained breathing apparatus with full face-piece operated in pressure demand or other positive pressure mode.
6.0	Accidental Release Measures	
6.1	Personal precautions	Wear face shield or goggles, chemically resistant gloves, and buttoned up lab coat. Avoid all contact with material. Ventilate the area.
6.2	Environmental precautions	Not indicated for the quantity of HF in this product and under normal conditions of use in a dental practice. Large amounts should not be flushed into sewer.
6.3	Method for clean up	For a small spill (this product): Absorb or wipe up spill with inert material, such as paper towels, and transfer to container for disposal. Wash spill site.
7.0	Handling and Storage	
7.1	Handling	For use by dental professionals only. Keep tightly capped in original container. Do not add any other material to container. Empty container may contain explosive or flammable residue.
7.2	Industrial Hygiene	Do not allow food or drink consumption or smoking while handling. Wear protective gloves and goggles. Do not get in eyes, on skin, or on clothing. Wash hands well after use.
7.3	Storage	Recap immediately after use. Store tightly capped in original container at cool room temperature (<25°C) and in a dry, well-ventilated area. Avoid water, heat, sparks, flame, organic substances, and direct sunlight.
8.0	Exposure Controls / Personal P	rotection
8.1	Exposure limit values	PEL/TLV (HF): 3 ppm; TWA (Alcohol): 1000 ppm
8.2	Exposure controls	
8.2.1	Occupational exposure controls	Eye protection and chemically impervious gloves are recommended for dental personnel under anticipated conditions of normal use.
8.2.1.1	Respiratory protection	For the small quantity provided in this product, no special respiratory protection is required. Local mechanical exhaust ventilation should be used to maintain exposure below 3 ppm.
		For large amounts of hydrofluoric acid, when threshold limits are exceeded (greater than 3 ppm), use self-contained breathing apparatus. Guard against aspiration into lungs.
8.2.1.2	Hand protection	Neoprene or polyethylene gloves are recommended.
8.2.1.3	Eye protection	Safety glasses or face shield worn by dental staff is adequate under normal conditions of use. For large quantities, safety goggles are required.
8.2.1.4	Skin Protection	Wear buttoned lab coat, long sleeves and/or apron over clothing to protect skin.

Trade Name: Porcelain Etch Gel

8.2.1.5 Other Controls If used *in vivo*, use rubber dam around tooth to be etched and high speed evacuator tip or other protective devices for patient. Mask all surrounding tissue. Patient should wear safety glasses. Emergency eye wash fountain should be close by. Wash hands thoroughly after handling. Clean protective equipment before reuse

8.2.2 Environmental exposure controls Do not wash large amounts of any acid into sewer system.

9.0	Physical and Chemical Properties		
9.1	Characteristics		
9.1.1	Appearance /Color / Physical state	Transparent yellow gel	
9.1.2	Odor	Characteristic	
9.2	Important health, safety and environ	mental information	
9.2.1	pH value	pH <1.5	
9.2.2	Boiling Point (Hydrofluoric acid)	108.33°C	
9.2.3	Flash point	Not determined	
9.2.4	Flammability	Not applicable for Porcelain Etch Gel.	
9.2.5	Explosive properties	Not applicable for Porcelain Etch Gel. For bulk hydrofluoric acid in closed containers: Pressure will build to dangerous levels when exposed to high temperatures. Flammable when heated.	
9.2.6	Oxidizing properties	Not determined	
9.2.7	Vapor Pressure	10.00 mm Hg / 13.33 mbar / ld: E	
9.2.8	Specific Gravity	1.18	
9.2.9	Solubility in water	100%	
9.2.10	Partition coefficient	Not determined	
9.2.11	Viscosity	Not determined	
9.2.12	Vapor density	0.7	
9.2.13	Evaporation rate	Not determined	
9.2.14	Ignition temperature	Not applicable	
9.2.15	Further information	Odor Threshold: 0.04 ppm	
10.0	Stability and reactivity		
10.1	Conditions to avoid	Extremes of temperature (>27°C/80°F, <5°C/40°F), sparks, open flame, all other sources of ignition, contamination	
10.2	Materials to avoid	Water, glass, concrete, materials containing silicon, carbonates, sulfides, cyanides, alkalis, bases, reducing agents, nitric acid, organic materials, metals.	
10.3	Hazardous decomposition products	Not available	
10.4	Hazardous reactions	Strong exothermic reaction when exposed to incompatible substances. Pressure will build to dangerous levels when closed containers of hydrofluoric acid are exposed to high temperatures. Flammable when heated.	
11.0	Toxicological information		
11.1	Acute toxicity of Hydrofluoric acid	PEL/TLV: 3 ppm. Dermal LD $_{50}$ mouse: 500 mg/kg. Vapor LC $_{50}$ human: 50 ppm,	

Trade Name: Porcelain Etch Gel

	(as F)	30 min. Causes severe burns. Destructive to tissue. Sensation may be delayed.
11.2	Irritation and corrosiveness	Causes severe burns. Destructive to tissue. Sensation of burn may be delayed.
11.3	Sensitization	Not a sensitizer
11.4	Sub-acute, sub-chronic and prolonged toxicity	Not likely in the quantity and concentration available in this product.
11.5	Carcinogenicity, Mutagenicity, Reproductive Toxicity	None known.
11.6	Empirical data	None available.
11.7	Clinical experience	Pulpdent Porcelain Etch Gel has been used safely and effectively for almost twenty years to successfully prepare porcelain surfaces for bonding. There have been no reports of serious injury during that time. Many of these preparations have taken place in a dental lab where there is less danger. Sometimes however, it is necessary to use Porcelain Etch Gel intraorally. For these cases it is most important to have a well-trained, experienced dentist perform the procedure and to use adequate shielding of soft tissue.
12.0	Ecological Information	
12.1	Ecotoxicity	Strong acid. Large amounts of HF may damage wildlife or aquatic ecosystems Do not flush large amounts to sewer; do not allow large amounts to flow into bodies of water.
13.0	Disposal Considerations	
13.1	Regulations	Follow all local and national government regulations in disposing material o contaminated packaging.
14.0	Transport Information	
14.1	UN Number	UN 1790
14.2	Technical name	Hydrofluoric Acid Preparation
14.3	IATA Class / Packing group	Class 8, 6.1, Packing Group II
14.4	Transport over land	US DOT/ IATA: Excepted Small Quantities. Maximum unit quantity: 0.5L
14.4.1	Transport Class	Class 8, 6.1, Packing Group II
14.4.2	Label	Hydrofluoric Acid Preparation. Corrosive! Toxic!
14.5	Transport at sea	US DOT/IATA: Excepted Small Quantities. On deck, under deck, passenge
	,	and cargo vessels Maximum unit quantity: 0.5L
14.5.1	Transport Class	
		and cargo vessels Maximum unit quantity: 0.5L
14.5.1	Transport Class	and cargo vessels Maximum unit quantity: 0.5L Class 8, 6.1, Packing Group II
14.5.1 14.5.2	Transport Class Label	and cargo vessels Maximum unit quantity: 0.5L Class 8, 6.1, Packing Group II Hydrofluoric Acid Preparation; Corrosive! Toxic!
14.5.1 14.5.2 14.6	Transport Class Label Air transport	and cargo vessels Maximum unit quantity: 0.5L Class 8, 6.1, Packing Group II Hydrofluoric Acid Preparation; Corrosive! Toxic! US DOT/ IATA: Excepted Small Quantities. Maximum unit quantity: 30 ml
